

public agencies operating therein.

3. The records sought by Plaintiff, specifically, records showing when District Attorney Phill Kline used his "key card" to enter and leave the courtyard parking area, are "public records" as that term is used in K.S.A. 45-217[g](1) and are records of "security information" of the Courthouse and the Sheriff as that term is used in K.S.A. 45-221(a)(12);

4. Defendant's objection to the production of the requested records on the ground that the records are exempt under K.S.A. 45-221(a)(12) is hereby overruled for the reason that Defendant has failed to establish that production of the limited information consisting of the entry and exit records of one individual would jeopardize the security of the Johnson County Courthouse or any public agency therein.

Accordingly, it is hereby ORDERED, ADJUDGED and DECREED that Defendant Frank Denning, in his official capacity of Sheriff of Johnson County, Kansas, shall produce to Plaintiff Meredith Corporation, doing business as KCTV-5, records showing when District Attorney Phill Kline used his "key card" to enter and leave the courtyard parking area during the period January 11, 2007 through May 4, 2007.

  
SENIOR JUDGE JOHN WECKEL, ASSIGNED
